HISTORY:

Inspired by the pioneering Finnish artist Touko Laaksonen (1920-1991, aka Tom of Finland), Tom of Finland Organic Vodka is a new super-premium spirit artistically crafted in Finland from the finest organically grown wheat, rye and pure arctic water. Bold but smooth, Tom of Finland Organic Vodka is full of character, where the spiciness of the rye is balanced by the softness of wheat and arctic water. The vodka is 100% organic and there is no added sugar. The masculine bottle liberates the liquid from traditional vodka packaging, reflecting the daring and playful character of the art associated with Tom of Finland. A percentage of profit from each bottle will be donated to the Tom of Finland Foundation, a charity dedicated to promoting tolerant attitudes towards sexuality and the preservation of erotic art.

PRODUCTION:

Tom of Finland Organic Vodka is distilled in Finland by Lignell & Piispanen which, founded in 1852, is the second oldest family-run company in Finland. Situated in Kuopio, surrounded by arctic waters, Lignell & Piispanen creates premium quality drinks with family heritage.

TASTING NOTE:

On the nose, has clean aromas with subtle hints of rye spice. The first sip gently coats your mouth with a silky smooth oiliness. Vanilla and cream soda lead to a crescendo of spice that hints at cracked black pepper with wonderful star anise overtones. It finishes with notes of delicate spice, perfectly accompanied by a soft mellow finish.
